

Free Fall Metal Detector

Product Description

Detectronic's Free Fall metal detector is a highly sensitive, and robust metal detector. Our advanced signal processing provides high and accurate detection levels and our metal detector impresses with maximum metal sensitivity and operational reliability.

The **Detectronic Free Fall metal detector** is suitable for a wide range of free falling products such as coffee, tea, grain, flour, spices, chocolate chips, etc.

The flat and slender design of the **Detectronic Free Fall metal detector** enables the detector to be integrated into a wide range of production lines even where conditions are very limited.

The **Detectronic Free Fall metal detector** can be equipped with various types of reject systems and adapted to the individual needs of the customer.

Detectronic Free Fall metal detector is made in Denmark. It is CE certified and comply with all good manufacturing practices and other well known, international food safety standards.

For any additional information about the **Detectronic Free Fall metal detector** please contact our Sales Team on sales@detectronic.dk

- detecting the future.***

Head sizes L/W/H

210 x 230 x 140 mm

300 x 300 x 160 mm

390 x 390 x 240 mm

400 x 400 x 250 mm

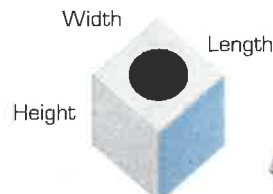

Search aperture

Up to Ø 2,5" (100 mm)

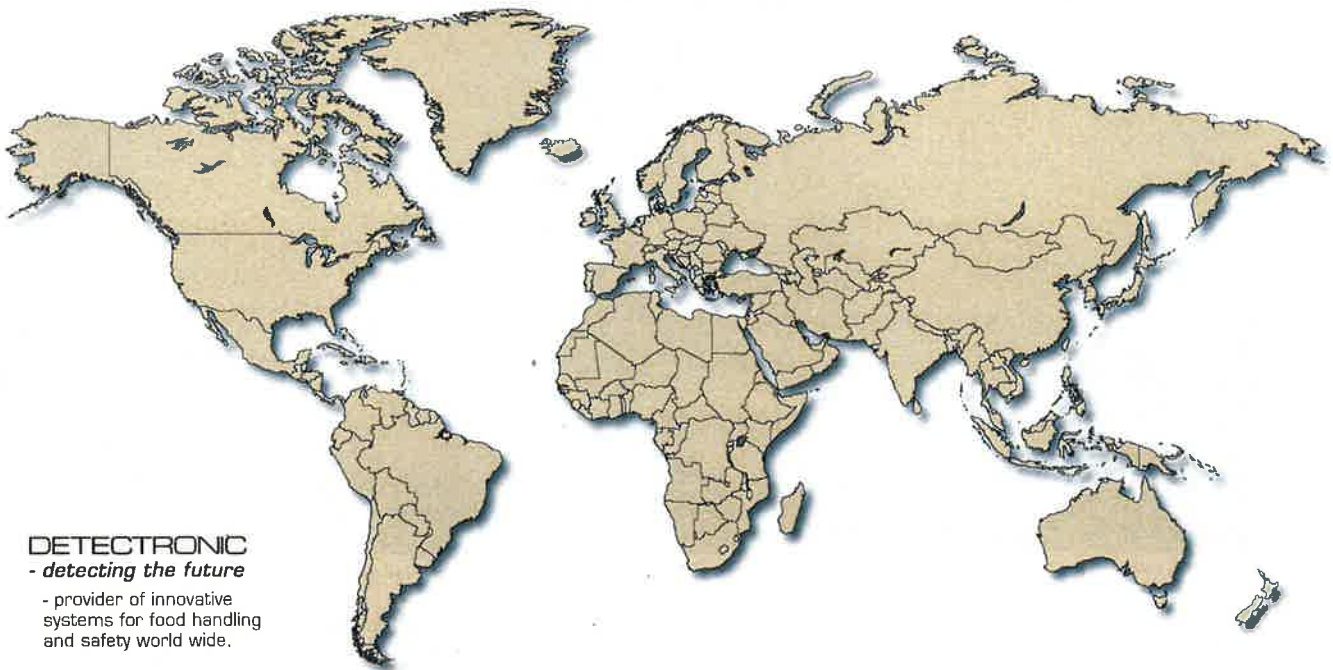

Up to Ø 4" (140 mm)

Up to Ø 9" (230 mm)

Up to Ø 13" (350 mm)

We offer test sticks in various shapes & sizes for metal detectors, pipe line detectors and x-ray systems
